

Countryside Setting

One of Bromson Hill's most sought after features is its countryside location. It is placed in beautiful grounds on the outskirts of the quiet village of Ashorne, 6 miles from the city centre of Warwick. Set high above Leamington Spa and overlooking the Warwickshire countryside, Bromson Hill is an optimal location to provide a relaxing experience.

*"I cannot speak highly enough of the stay at Bromson Hill. It is a homely nursing home and the care and information given was excellent."
Stuart, son of a resident*

BM Care Homes
Bromson Hill

Excellence in care

We recognise that each resident is their own individual with unique needs. We have an established team of nurses and qualified carers who provide excellent nursing care as prescribed by each resident's specialist and family doctor. Residents come to us from hospitals or their own homes and can stay for short periods, such as a week or two, or for a longer period of time.

Our belief is that understanding a residents past is critical to helping their future and we design care plans that reflect their medical needs and leisure interests. We appreciate the importance of people's emotions and treasured possessions and are happy for residents' to bring along any belongings which help in their transition from home to life at Bromson Hill. We are guided by our core values of dignity, respect, independence, privacy and choice, which ensure we fulfil our residents' needs at all times.

Each resident has a dedicated key care worker in order to fulfil our objective to provide the best care possible. A Care Plan is created for each individual which is implemented, regularly reviewed and updated. We establish and carry out careful procedures for the administration of residents' medicines. We take the steps to safeguard residents' privacy and dignity in all aspects of the delivery of health and care.

We specialise in:

- Nursing Care
- Palliative Care
- Respite Care

Homely environment

The goal of our staff is to make our residents feel as at home and valued as possible. We accomplish this mission through providing comfortable living areas and resident suggested activities.

Facilities

Our bedrooms are beautifully furnished with large windows, en-suite facilities, and equipped with safety features. Residents are encouraged to decorate their room as they wish. We offer a comfortable lounge area where residents can socialise and take part in activities together. The dining room is a pleasant space to enjoy the variety of healthy meals we provide. Our chef caters for all diets and regularly updates the menu. Bromson Hill boasts a large, wheelchair-accessible outdoor space for residents to enjoy at their leisure. Carers are on hand at all times to ensure the residents' safety is not compromised.

Activities

Every day we offer a range of activities for residents to take part in to ensure everyone shares an enjoyable atmosphere. All of the activities are optional so everybody has a choice of how they spend their time here. We try to take on board our residents' suggestions and are always looking for ways to broaden the range of activities we offer. Residents and families enjoy, in particular, our summer party in our gardens as well as being able to sit outside. Our close bond with the people we care for means we are constantly aware of their changing needs and can tailor our recreation programme to suit their desires.
