

Bromson Hill Nursing Home

BM Care Homes

Bromson Hill Nursing Home is part of the **BM Care Homes** and is set in beautiful grounds on the outskirts of the quiet village of Ashorne, 6 miles from the centre of Warwick.

It is particularly well situated for those in the area requiring either a long or short term stay. Set high above Leamington Spa and overlooking the Warwickshire countryside Bromson Hill is a nursing home for older people.

Formerly a grand Edwardian manor house, Bromson Hill has been extended and updated to offer its residents spacious accommodation in a specialist nursing environment.

We provide privacy and individual space in a range of single and double rooms, most with en-suite facilities. There are large open living areas with views over landscaped gardens and a mix of period features such as the galleried staircase.

Bromson Hill Nursing Home specialises in providing:

- ❖ Nursing Care
- ❖ Respite Care
- ❖ Palliative Care

Nursing Care

Bromson Hill Nursing Home is registered to provide 24 hour general nursing care with a team of qualified Registered General Nurses. Our dedicated staff recognise each person's needs are individual and we develop a personalised plan of care in collaboration with the resident, family, carer and where necessary health professionals, to ensure a stay at Bromson Hill is an enjoyable and restful experience for all concerned.

Respite Care

Apart from long term stays we are also able to accommodate individuals looking for respite care or recuperation after a stay in hospital. We can provide an emergency assessment within 24hrs to aid the speed of the referral process.

We are aware of how important respite care can be for both the person being cared for and the carer. It can allow home based carers to take a break or a scheduled holiday as well as allowing someone who requires permanent care to take a break from their usual routine.

Palliative Care

At Bromson Hill we understand that you may be looking for the most sensitive type of specialist care. We have experienced nurses and care staff who are able to use active care methods to improve pain control and quality of life for those residents who have a long term or terminal illness that is no longer responding to treatment.

Care Planning

Our belief is that understanding a residents past is critical to helping their future and we design care plans that reflect their interests, work and leisure. We appreciate the importance of people's emotions and treasured possessions and are happy for residents to bring along any belongings which help in their transition from home to life at Bromson Hill.

Activities

Activities form the basis of daily life. We have an experienced Activities Coordinator who provides frequent events, outings and occasions for residents, their families and friends.

We take time to find out what residents enjoy and try wherever possible to incorporate their hobbies and interests into their daily routine. We also encourage carers to spend time with residents participating in one-to-one activities throughout the course of a day.

Nutrition

Nutrition is an important element of care so menu choices are carefully planned to make mealtimes special. Our residents play a key role in the decision process of choosing what they would like to see on the menu. We also cater for any residents with special dietary needs or requirements.

All of our staff have been trained to ensure each resident's individual rights and choices are respected at all times.

BM Care Homes invest heavily in the training, motivation and personal development of their staff who deliver the highest standard of care to all residents ensuring that they are supported through the core values of care which include:

- ❖ Privacy & respect
- ❖ Dignity at all times
- ❖ The promotion of independence
- ❖ Choice where possible in care options and daily life
- ❖ Resident's rights and fulfilment of life
